# ECOPARK GROUP

## LA VEGA ECOPARK PROJECT

---

## SUMMARY PROFILE

**Puerto Rico Eco-Park, Inc (PREP)** Manage and administrative companies from the group including services as accounting center for the group of companies engaged in environmental remediation and consulting, solid waste management, recycling, renewable fuel and specialized environmental projects. Concentrate business development in Puerto Rico and the Caribbean. PREP is planning new venture in environmental, waste to fuel conversion and solid waste management at the Republic Dominican and US Virgin Island. Also, we are evaluating business opportunities in Florida, US. [www.ecoparkpr.com](http://www.ecoparkpr.com).

PREP operates four (4) landfills in Puerto Rico, handling more than 1,500 daily tons of Municipality Solid Waste (MSW), green waste and construction & debris. Since October 2013, related companies from PREP had started to develop three renewable fuel projects; landfill gas to Compress Natural Gas, Refuse Derived Fuel (RDF) facilities from plastic material and produce renewable biomass fuel product from green waste. All renewable fuels material will be used by industrial companies as fuel for boiler, energy and steam production.
